Wilson Road Trailhead	32° 45' 106" N / 085° 57' 391" W

Rocky Mountain Loop
Full canopy in summer. Gently sloping terrain with one steep area. Multiple scenic lake views and road crossings. One stream crossing and mostly solid trail footing. Large, impressive pines and varied habitats. Recommended for hikers. 1.5 MILES

Two-Day Loop
Mixed pine and hardwoods. Spotty sun and shade. Parts of trail parallel a stream. High fitness level suggested - high stepping required over rocky areas and fallen trees. Mostly rolling, gently sloped terrain with sections of rough or wet ground and steeper inclines. Powerline, road and stream crossings. Entire loop not recommended for hikers due to a deep water crossing that may be chest high or deeper. 3.5 MILES

Dark Valley Loop
Cool and mostly shaded with multiple stream crossings. Slopes are gentle with few steeper areas. Beech trees and riparian habitat. Low-lying parts of trail may be very wet or muddy. Hikers should be prepared to navigate around seasonally wet areas of this well-marked trail. 3 MILES

Branch Loop
Lake views and stream crossings. Intermittent rocky terrain with mild slopes. Mostly shaded with a variety of tree growth stages. For ease of footing, begin hike from entrance closest to Wilson Road trailhead. Equestrians will enjoy trail equally from either direction. 1.3 MILES

Turtle Back Loop
A scenic and engaging trail. Multiple creek crossings through cane bottomland leading to open mature hardwood hillsides. Excellent trail for birding. Most of trail is heavily shaded with an open grassy section along an old fence line. Impressive pristine habitats along entire trail afford excellent opportunities for wildlife viewing. Trail is wide enough to navigate around low-lying wet areas. Park at Wilson Road Trailhead and enjoy Big Way until you see a sign on the right marking this trail. 3.5 MILES

Barn Loop
Wide packed gravel and dirt roads within easy distance of other more challenging trails. 1 MILE

Long Leaf Loop
Cool and mostly shaded with multiple streams. Slow-growing Beech trees announce their age with their massive size. Low-lying trail allows for scenic habitats and creek access. Gentle forested slopes. 1.5 MILES

Horsely Creek Trail
Parking at nearby Willow Point Trailhead allows immediate access to large horse roundpen. This trail is very water-oriented and explores miles of serene woodland along Horsely Creek. The trail is narrow and rocky in places. Footing is mostly soft pine straw with some weather-related wet spots. Trailblazers will discover an ideal place to rest, water horses and picnic at Butterfly Crossing. Hardwoods and pine of mixed maturity create a shady canopy as hikers and riders enjoy a variety of lake views. 4 MILES

Ole Kowaliga Trail
Running parallel to 100 Year Creek, Ole Kowaliga Trail is easily accessed from Big Way West and Long Leaf Loop. Old oak trees and other hardwoods are a canopy as one hikes the trail by the old saw mill location and further to the charcoal pit where in years past, charcoal was packaged and sold as Ole Kowaliga Brand Hardwood Charcoal. 1 MILE

Big Way
North and South main trail with access to most side trails. 4.5 MILES

Green Way
Future Electric Vehicle Trail. 3.6 miles

Pony Express
Trail loop with access to Seven Points, Two-Day Loop and Big Way. Enjoy mature pines, streams and hardwoods. 2.5 miles

Pitchford Creek
This trail begins near Willow Point Cut-Off Trailhead. It is a nice, wide path through beautiful old growth pines venturing into a small dense forest. Some wet-weather spots are found on the trail, but most of the trail is easily accessed. The trail meanders into lovely hardwoods with many stream crossings. It winds beside beautiful and at times, cascading Pitchford Creek ending at Willow Point Security Gate. 4.8 MILES

Frontier Trails
These trails have multiple entrance points. Access from Adamson Trailhead will take the trail user through a host of plantation pines and at times, new Highway 63. There are two power line crossings and a number of dry washes and stream beds. One fork leads trail users off to a winding little stream and then to Butterfly Crossing. 4.0 MILES

E.W. Rail
Take a glance back into history as this path leads along an old railroad bed built back in the early 1900's. Traveling east from Adamson Trailhead, go left at the fork to the Willow Point Security Gate or right to the airfield and Frontier Trails.
